

# WATCHARD

## MEASURE YOUR WRIST SIZE

in order to perfectly fit a bracelet

1. Print this page on an **A4 paper**.
2. Cut out the ruler along the dotted lines.
3. **Tightly wrap** the ruler around your wrist (where you usually wear your watch).
4. Mark where the ends of the paper ruler touch.

Our staff will perfectly match your measurement to your bracelet.  
If you want your watch to fit looser, add 0,5 - 1 cm to your result.

Be sure to mark the "print actual size" option in the settings.  
Print this page at 100% on an A4 page.  
Otherwise, the ruler may not be in the correct size.
